Why should you choose Powerplus cabinets?

There are enclosures to suit outdoor or indoor installations. Strong steel cabinets with a high quality powder coating finish promote durability and security whilst being well-suited to protected environments like garages, sheds and other enclosed spaces. Like to choose Australian made? Rely on PowerPlus cabinets to protect your next system.

What is a pef6/250b battery storage cabinet?

Keep all your PCE equipment and additional components in one accessible cabinet out of the elements. Both our PEF6-250B and PEF12-250B cabinets lend themselves to full system enclosure fitting well known inverters. The second largest battery storage cabinet in the Slimline range offers homeowners the flexibility for future system expansion.

What is a slimline battery storage cabinet?

The second largest battery storage cabinet in the Slimline range offers homeowners the flexibility for future system expansion. The battery side mount installation allows the narrow profile to be maintained whilst eliminating the need to compromise on your power capacity.

What are pre-wired cabinets?

Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Suitable for protected environments, our Rack cabinets make the most of the available floor space.
