The energy storage cabinet can provide stable and continuous power support for remote mountainous areas, islands, pastoral areas and other areas without electricity or un-stable power supply.

GS energy storage Inverter outdoor cabinet designed for areas without electricity and remote rural areas.

High voltage and large capacity: Meet the energy storage needs of high power and large capacity, store more electric energy, and provide stable power support for large electrical equipment or systems.

Designed with high integration density in mind, our system features a modular design that seamlessly adapts to inverters with voltage ranging from 600V to 1500V.
