What is a standard server rack?

Standard Server Rack A standard server rack is often quite a bit cheaper than more robust versions, but these are still long-lasting durable high quality racks designed for deployment in any data center in the country.

Where are server racks made?

Since 1999, we have provided server racks, cabinets, and enclosures that continuously satisfy our customer's high standards and are Made in the USA! Our IT products are flexible and compatible with all rack mount servers or other electronics, to adapt to changing needs.

What is a server rack & cabinet?

Server racks and cabinets serve as the central point where all networking cables and devices converge. An open frame server rack features a framework of shelves upon which equipment rests, offering easy access.

What is an enclosed server rack?

Server Racks that are protected from all four corners are called "enclosed frames." These are available with locks one or two locks on the front, back or both. Because of the extra metal, enclosed frame racks are a bit more expensive and allow less airflow. The walls allow for more cable management, fans and sensor accessories to be mounted.

RackSolutions has been manufacturing high quality server racks and cabinets for over 20 years. Whether you need a single rack at home or a thousand in a data center, you'll find the best that ...
