What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why do you need an outdoor enclosure?

These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices. Efficient outdoor enclosures ensure reliable performance and longevity under harsh weather. ArmorLogix is a leading manufacturer of outdoor enclosures with decades of experience creating turnkey solutions across industries.

Why should you choose a modular enclosure?

With modular construction, advanced protection, and configuration flexibility, they are ideal for global telecom and industrial applications. Constructed from corrosion-resistant materials and tested for wind load, impact, and thermal cycling, our enclosures guarantee reliable field performance even under severe environmental conditions.

Outdoor cabinets play a critical role in maintaining the integrity and functionality of network infrastructure. They provide a secure and controlled environment for equipment, ensuring uninterrupted service and ...
