Why is Göteborg Energi building a new battery Gigafactory?

Gothenburg's publicly-owned energy company, Göteborg Energi, has broken ground on its large-scale project to strengthen the region's electrical grid. The move is needed to connect Novo Energy's new battery gigafactory and to continue the electrification of the region's industry and transport.

What is Battery Centre Gothenburg?

It will be 100 percent powered by fossil-free energy and the aim is to supply batteries for approximately half a million electric cars per year. Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production.

Is Gothenburg a battery cluster?

Gothenburg is an innovation hub and a leader in the transition towards sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility.

What is the new Gigafactory in Gothenburg?

The new gigafactory in Gothenburg is a joint venture between Volvo Cars and Swedish battery maker Northvolt, known as Novo Energy. The new plant will be operational in 2025 and will employ around 3,000 people.

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.

Our batteries are produced in China, and then shipped, finalised and tested at Capture Energy's site in Gothenburg, Sweden. At the same time, the site where ...
