Efficient, safe, long life (up to 3500 cycles) energy storage battery; The temperature-controlled fan automatically adjusts the wind speed, low ...

Its compact size allows for rapid deployment, making it an ideal fit for small microgrids, off-grid applications, or regional telecom base stations, providing reliable power without the need for ...

The internal integrated lithium battery has the guarantee ability of backup power supply; With intelligent power-off function, remote control of each branch output on-off function;

The base station power cabinet is a key equipment ensuring continuous power supply to base station devices, with LLVD (Load Low Voltage Disconnect) and BLVD (Battery Low Voltage Disconnect) ...

For power distribution requirements of medium to large data centers, Delta's Power Distribution Unit (PDU) is an optimal solution. The space-saving PDU is easy to move and adapt to the future ...
