Browse Nordson's battery manufacturing equipment, including tools to develop batteries used in mobile devices, electric vehicles, and more.

Based on the brochure "Production process of lithium-ion battery cells", this brochure presents the process chain for the production of battery modules and battery packs.

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are scalable, ...

Re:Build Battery Solutions helps manufacturers scale battery production with confidence. From prototype development to full-scale pack production, we ...

Learn the complete battery pack manufacturing process, from cell selection to final assembly.

Our turnkey solutions for battery packs integrate all the processes required for efficient and reliable battery production. This includes ...

D&#252;r offers equipment for every stage of the value chain - not only paving the way for the production of efficient, high-quality batteries and electric vehicles, but also supporting future industry growth.

With over 15 years of experience in battery manufacturing, we have established ourselves as experts in battery assembly solutions, especially module and pack. ...
