-----

As the capital of Brazil, Brasilia is unlike any other city in the country. This planned city, inaugurated in 1960, stands as a symbol of Brazil's forward-looking vision and modernist architecture.

The Brazilian Energy Storage Solutions Association (ABSAE) reports that nearly 18 GW of battery projects are already prepared for registration. Contracting even 2 GW could unlock ...

Brasilia is the capital of Brazil. Located in the Federal District within Goias state on the central plateau of Brazil, it lies between the headwaters of the Tocantins, Parana, and Sao Francisco ...

It's 40°C in Rio de Janeiro, air conditioners are working overtime, and suddenly--blackout. Sound familiar? Brazil's energy grid has more plot twists than a telenovela, which is exactly why its ...

The Brazilian National Electric Energy Agency (ANEEL) is entering a new phase of dialogue on energy storage regulation. On December 10, 2024, ANEEL presented the results of the ...

From this perspective, Brazil's energy and electricity matrices are constantly gaining strength; as an example, in July 2023, Brazil has reached the goal of 23 GW of capacity only from consumers who ...

Brasilia provides something uncommon in the modern travel industry: room to relax, contemplate, and see another side of Brazil with its wide open skies, daring architecture, and serene ...

The move reflects the need to increase the reliability of supply in remote locations, reduce costs in commercial ventures, and avoid losses for generators affected by curtailment.
