What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

What type of building do Argentines use?

In fact, Argentines grew so tired of the common conundrum, that they sought to find a solution by making Type I the official standard. Therefore, expect new and more modern buildings to use Type I, while older constructions could still use Type C. Some hotels might even have one type in the bathroom and another in the bedroom.

Do you need a neck wallet in Buenos Aires?

Pickpockets ply crowded tourist streets such as La Florida in Buenos Aires, while muggers have been known to target tourists in cities around the country. Therefore, to keep your essentials, such as your credit card and passport safe, it's wise to invest in a neck wallet for your upcoming trip to Argentina.
