What is the Big Canberra battery project?

Installation is underway on behind-the-meter batteries at nine sites. The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes the installation of: installation of behind-the-meter batteries at nine government sites.

What is Australia's biggest energy tender?

Australia's biggest tender delivers 15 GWh of battery energy storage systems, boosting grid reliability and advancing the 2030 renewable target.

Will Canberra's energy supply be future-proof?

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development application has been approved to deliver Stream 1 of the project - a grid-scale battery in Williamsdale. This ACT Government has partnered with Eku Energy on this project. Construction will begin later this year.

How much power will the Big Canberra battery deliver?

The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will be able to deliver this power for two hours. The Big Canberra Battery will have 500 MWh of capacity, which on a single charge could supply 23,400 households with their daily energy use.

This proposal seeks agreement to proceed to a Request for Proposals for Stream 1 of the Big Canberra Battery Project so as to secure contracts for output for one or more large-scale battery storage systems.

Let's face it - keeping up with energy storage tender lists can feel like chasing a moving target. But in 2025, these lists aren't just bureaucratic paperwork - they're golden tickets to billion ...

A workshop was held with industry and the Australian National University to explore ideas about how the Big Canberra Battery will work. The workshop received 42 submissions from ...

Through this, three medium-sized neighbourhood-scale batteries will be installed in Casey, Dickson and Fadden. A battery operator will be selected in late 2024 following a procurement ...
