-----

The project is expected to help diversify and accelerate the development of next-generation energy storage in China. To date, lithium-ion batteries have dominated the country's ...

On May 25, China's first large-scale lithium-sodium hybrid energy storage station -- the Baochi energy storage station developed by CSG -- was ...

China just fired up a next-gen battery hub blending lithium and sodium in its latest energy leap. On Sunday, its first lithium-sodium hybrid energy storage station began operation, marking...

China has made significant progress in renewable energy storage with the unveiling of its first large-scale lithium-sodium hybrid battery storage power station in Yunnan Province. The Baochi ...

A new energy storage plant featuring sodium- and lithium-ion batteries has opened in China's Yunnan province. The energy storage station, ...

On May 25, China's first large-scale lithium-sodium hybrid energy storage station -- the Baochi energy storage station developed by CSG -- was officially put into operation in Wenshan ...

China's first large-scale lithium-sodium hybrid energy storage station has been put into operation, capable of powering hundreds of thousands of homes, as sodium-ion batteries are more ...

A new energy storage plant featuring sodium- and lithium-ion batteries has opened in China's Yunnan province. The energy storage station, operated by China Southern Power Grid, is ...
