We provide a wide range of Outdoor Cabinets solutions that are built with rugged materials, excellent ventilation, and secure locking systems--perfect for both industrial and commercial setups.

It can be used in various harsh outdoor environments with a salt spray time of 500 hours. The product shell is made of aluminum alloy material, which is light and can be manually carried. It is ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids.

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

At Rana Metal Works, we specialize in custom sheet metal fabrication and IP-rated outdoor enclosures that withstand rain, dust, UV exposure, and corrosion. In this blog, we break ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.
