Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development (EBRD), the bank ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Sibenik, marking a ...

With EU funding and ambitious decarbonization goals, the country offers lucrative opportunities for companies specializing in battery storage, grid stabilization, and hybrid energy systems.

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Sibenik.

The development will facilitate the installation of up to 60 megawatts of grid-connected battery storage capacity and the implementation of a VPP platform, enabling real-time balancing of ...
