How do I choose the best battery for a data center?

Selecting the most appropriate battery for a data center depends on more than the battery itself and the chemistry it utilizes. The installed location and environment will contribute to battery efficiency. When selecting batteries for mission-critical operations, the choice is not as simple as cost or preference.

What is a Lenovo 42U 1200 mm deep rack?

Lenovo 42U 1200 mm Deep Rack offerings are industry-standard 19-inch server cabinets that are designed for high availability server environments. They are optimized to help maximize floor space, expedite installation, simplify cable management, and increase accessibility for improved serviceability.
