What is a mission-critical battery & data center uninterruptible power supply (UPS)?

A mission-critical battery & data center uninterruptible power supply (UPS) is a high-caliber power protection solution designed to support critical applications. C&D Technologies delivers cutting-edge, tailored solutions backed by advanced technology for end users, OEMs, and system integrators.

What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What is a battery cabinet?

A battery cabinet is a housing designed to hold batteries used to power an uninterruptible power supply (UPS) system. In the event of a power disruption or outage, the UPS system ensures that your devices continue to operate from the energy stored in the batteries in the battery cabinet. Lithium-ion 34.6 kWh-parallel up to 5 MW.

What is a UPS battery cabinet?

Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery. Industries such as data centers, healthcare, and manufacturing depend on UPS battery cabinets to safeguard operations, protect sensitive equipment, and maintain uptime.

Global Power Supply provides secure, industry-compliant cabinet systems for data centers, hospitals, and other critical facilities that depend on uninterrupted power.
