What is a Vertiv EnergyCore Battery Cabinet?

The Vertiv(TM) EnergyCore Lithium-Ion Battery Cabinet provides high power density in a compact design. It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30C and optimized for either 5- or 7-minute runtime.

How does the integrated battery management system work?

The integrated battery management system is powered by the Vertiv EnergyCore batteries, removing the requirement for an external power source and simplifying installation.

How many lithium-ion battery cabinets do I Need?

Due to the density of the Vertiv EnergyCore design, only two lithium-ion battery cabinets are needed to support each 500kW Trinerigy(TM) UPS core, versus the three cabinets that are required by most suppliers.

All of Tripp Lite's Cabinets are PCI-Compliant. Sturdy steel panels surround all sides of equipment, preventing unauthorized access to networking devices and ensuring the physical security of ...
