Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

Embedded peak shaving and valley filling, demand management, storage and charging control, and various operational control modes are applicable to almost all industrial and commercial application ...

The distributed energy storage cabinets are built for durability, safety, and long-term reliability. A fully enclosed liquid-cooling system ensures precise heat dissipation and stable performance under high ...

Especially suitable for some precious and infrequent cultural relics, for long-term storage and management.

Application areas: It can be applied to load peak shaving, peak-valley arbitrage, backup power supply, peak load regulation, frequency regulation and ...

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and ...

Application areas: It can be applied to load peak shaving, peak-valley arbitrage, backup power supply, peak load regulation, frequency regulation and microgrids. The system has two operating modes: ...
