Will dispatch build the Netherlands' largest stand-alone battery energy storage system?

This project marks the first of many aimed at developing up to 3GWh of BESS projects across the Netherlands, Belgium, and Germany over the next seven years. Dispatch, a leading Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS).

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS) in the port area of Dordrecht. The system will be used for grid stabilization by storing excess energy from renewable sources. The battery, consisting of 144 Fluence cubes will be located on a 6000m<sup>2</sup> site.

What will equans Netherlands do for Eneco?

Equans Netherlands will take charge of the engineering and construction of the battery storage system. Eneco will use the battery on a long-term basis to manage differences in supply and demand in energy markets.

How many lithium-ion battery racks will be installed in Eemshaven?

A total of 110 lithium-ion battery racks will be installed at RWE's biomass plant in Eemshaven on an area of around 3,000 square metres. The storage system is planned to supply control energy and to operate in wholesale markets as of 2025.

Construction is set to commence in the coming months and arranged in partnership with infrastructure fund EPICo<sup>2</sup>, Macquarie Capital and lender ABN AMRO.
