Why should you choose EPC power?

EPC Power provides your operation with adaptable PCS solutions. Engineered for space efficiency and seamless integration, our IP55-rated systems provide reliable performance in any application and fuel the world's largest renewable energy projects. Our inverters provide reliable, high-power output and advanced grid interaction for data centers.

Who is EPC services company?

EPC Services Company (EPCS) was founded in 2000 to meet the growing demand for fast-track utility and energy projects and has grown into one of the largest specialty EPC firms in the U.S. Today, EPCS manages up to two dozen EPC contracts annually, guided by over 100 years of combined high-voltage power delivery experience among our leadership.

Who is EPC power?

Together, we're revolutionizing power conversion for a brighter, more sustainable future for the generations ahead. In addition to our USA and Finland offices, EPC Power has over 4,000 MW deployed within the United States and nearly 6,000 MW deployed worldwide. Providing you with future forward power conversion solutions.

Who coordinates the services provided by the EPC contractor?

Upon written request of the Client, the EPC Contractor shall coordinate the services and necessary demarcations between services of any consultants, contractors, subcontractors or suppliers retained by the Client in connection with the Project with those services provided by the EPC Contractor and or its Subcontractors and consultants.
