New UPS models with these technologies are ideal for edge computing deployments. Thanks to wide-bandgap chips and lithium-ion ...

Edge computing deployments require robust power protection to ensure uninterrupted operations. The best rackmount UPS systems for these environments combine high efficiency, scalability, and remote ...

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

Our Power Cap Shelf, equipped with lithium or EDLC capacitors, buffers these peaks directly at the load, supplies energy when needed, and recharges during low-load phases - ensuring a stable power supply.
