What is MCTC-ARD-C series elevator auto rescue device user manual?

2019 New Catalogue. MCTC-ARD-C Series Elevator Auto Rescue Device User Manual - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online. The document is a user manual for an elevator auto rescue device (ARD). The ARD monitors mains power and automatically runs the elevator in emergency mode during a power failure.

What is an elevator Auto Rescue Device?

The document is a user manual for an elevator auto rescue device (ARD). The ARD monitors mains power and automatically runs the elevator in emergency mode during a power failure. It runs the elevator at an evacuation speed to the nearest floor and opens the doors to let passengers out, improving safety. The ARD can be mounted in the wall or floor.

How do I attach the rescumatic&#174; emergency escape device?

The Rescumatic&#174; Emergency Escape Device should be attached to the dorsal D-ring or the front D-ring. Attachment of the harness to the descent device is made by using a carabiner connected to the D-ring on the harness and the metal D-ring on the end of the Rescumatic&#174; body support.

How many people can use the rescumatic&#174; emergency escape device?

**NUMBER OF USERS:** The Rescumatic&#174; Emergency Escape Device is used by one person at a time. Multiple descents can be performed. **BODY SUPPORT:** The webbing body support strap provided with the system provides limited support when descending.
