-----  
What are the changes to planning legislation for energy storage projects?

The changes to planning legislation for larger energy storage projects were first announced back in October 2019 to allow planning applications to be determined without going through the Nationally Significant Infrastructure Project (NSIP) process.

How will a new energy storage bill affect ratepayers?

At the core of the law is a new structure to incentivize energy storage, or battery, projects. It will result in new charges to ratepayers, though supporters of the bill say that those costs would be offset by cost savings from greater energy efficiency, storage and planning.

Will a new energy reform package bolster Bolingbrook's power grid?

An industrial-scale battery storage facility at G&W Electric in Bolingbrook, which was installed in 2024. Amid warnings of impending energy shortages, Gov. JB Pritzker on Thursday signed a wide-ranging energy reform package into law aimed at bolstering the state's power grids after years of negotiations.
