What are 5G outdoor cabinets?

5G outdoor cabinets, also referred to as 5G outdoor cabinets or 5G outdoor enclosures, are boxes designed to house and protect the electrical equipment to support 5G-LTE technology. Made of metals, plastics or a combination of the two material types, 5G outdoor equipment enclosures serve the following primary purposes.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.

Why are outdoor base stations important during power outages?

It becomes a top priority during power outages to maintain data flow. Outdoor base stations integrate all essential systems into a single Integrated Cabinet, designed to endure harsh conditions like direct sunlight, rain, and extreme temperatures. These units protect the equipment while ensuring efficient functionality.

What is a base station power supply?

This acts as the "blood supply" of the base station, ensuring uninterrupted power. It includes: AC distribution box: Distributes mains power and offers surge protection. Switch-mode power supply: Converts and stabilizes power while managing DC output. Battery banks: Serve as backup power to keep systems running during outages. 3.
