AZE's 18U Wall mount Outdoor Cabinet are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while ...

Each outdoor photovoltaic telecom energy cabinet is built for harsh outdoor telecom and edge usage, characterized by durability, flexibility, and intelligent control to provide unshakeable power supply.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration.

Based on a lithium iron phosphate battery system, the ESS outdoor cabinet serves as a comprehensive complete solution for stationary energy storage.

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

55kWh air-cooled energy storage cabinet with IP55/IP66 protection, designed for industrial and commercial photovoltaic energy storage applications.

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.
