The development of this new flow battery marks a significant milestone in energy storage technology. Unlike conventional batteries, this high-current density, water-based battery is designed ...

Imagine a battery that can power your home for 10+ hours straight, scale up to support entire cities, and outlast your smartphone by decades. Welcome to the world of liquid flow battery ...

The quick summary: Engineers have developed a new water-based flow battery that makes rooftop solar storage more affordable, efficient, and safer than conventional lithium-ion ...

Get answers to your questions about HBO Max: sign in, billing, your account, and streaming. We're here to help!

A commonplace chemical used in water treatment facilities has been repurposed for large-scale energy storage in a ...

This membrane inside the new battery effectively guides the flow of materials, resulting in long battery life, fast charging, and excellent performance. ...

This next-generation "flow battery" paves the way for compact, high-performance energy systems suitable for households and is projected to cost far less than today's lithium-ion setups, ...
