There has been substantial discussion around the hybridization of EDLC supercapacitors and other energy storage devices, such as lithium-ion batteries or pumped storage hydropower, to meet long ...

Like a little sister to the Suzhou Museum of Contemporary Art, the Jinji Lake Pavilion seeks to reimagine the future architecture and landscape of the Lake District rooted in the rich heritage of Suzhou's ...

When designing a supercapacitor energy storage solution, how big is big enough? To limit the scope of this analysis, let's focus on the classic holdup/backup applications used in high end consumer ...

This DC to DC converter can operate in voltage, current, and power control modes, and is capable of on-the-fly switching between modes. Designed to be easily scaled, any combination of up ...

Designed by BIG Landscape, the courtyard's design is repeated in the office's surrounding landscape, where green pockets for socializing are placed close to the entry area.

Smallest cell capacity available for selected cell type that satisfies capacity requirement, line 6m, when discharged to per-cell EoD voltage, line 9d or 9e, at functional hour rate, line 7. OR, if no single cell ...

BIG has grown organically over the last two decades from a founder, to a family, to a force of 700. Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, ...

At the foot of BIG HQ, BIG's Landscape team has transformed a former parking area into a 1,500 m<sup>2</sup> public park and promenade, inspired by the sandy beaches and the coastal forests of Denmark.
