How much do solar panels cost in Georgia?

On average, installing solar panels in Georgia costs about \$19,635 after taking into account the federal solar investment tax credit. That's roughly 17% more than the U.S. average of \$16,715. While solar panels in Georgia are relatively pricey, the savings over 25 years can add up to \$23,182. That can make it well worth going solar.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.

Can a solar power system lower your electricity bill in Georgia?

On average, a solar power system in Georgia can lower your electricity bill and pay for itself over time. Below you can see power generation, cost, and savings of different system sizes. Go Solar for less than your cell phone bill. Purchasing solar panels is no small task. Here are a few ways you can pay for solar:
