To connect the battery cabinets to the Liebert ITA2 UPS, refer to the UPS user manual, SL-00030, which shipped with the UPS and is available at Vertiv's Web site:

Connect the power system's battery cable terminated in an Anderson connector to the first battery cabinet's battery cable terminated in a mating Anderson connector.

Push the third battery cabinet into position, align with the seismic anchoring (if any), level the battery cabinet, and interconnect with the other battery cabinets as described in step 2, step 3, and step 5.

Welcome to SUNGOLDPOWER's installation video for our new battery cabinets! This video provides a complete overview of the accessory components and a detailed step-by-step installation...

One of the most common mistakes is to parallel all the batteries together and then connect one side of the parallel battery bank to the electrical installation.

Quickly and easily find the right products and accessories for your applications. Start your sales inquiry online and an expert will connect with you. Where to buy? Easily find the nearest Schneider Electric ...

Connect the battery cable accessory to one end of the battery port on the rear panel of the UPS and connect the other end to any battery port on the rear panel of the EBC.

This helpful video provides instructions on how to connect EverVolt battery electrical wiring and communication wiring.
