By integrating a high-performance hybrid inverter with scalable lithium battery modules, it ensures efficient energy conversion, flexible storage capacity, and long-term reliability.

Easy installation and easy operation, manage your energy distribution between renewables, AC grid, and battery. Our Aimbridge Energy DC Microgrid packages provide power system capacities ranging ...

Each cabinet powers multiple LED streetlights, providing nighttime illumination + renewable energy storage. Often used in smart city projects, ...

This outdoor battery cabinet is highly customizable and designed for telecom, power, and solar energy storage applications. It offers flexible configuration in structure, materials, cooling, electrical ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

Available in 232kWh and 261kWh capacities, this system is ideal for use in microgrids, off-grid energy solutions, and hybrid power systems. With advanced liquid-cooling technology, it ensures optimal ...

Easy installation and easy operation, manage your energy distribution between renewables, AC grid, and battery. Our Aimbridge Energy DC Microgrid packages provide power system ...

Easy installation and easy operation, manage your energy distribution between renewables, AC grid, and battery. Our Aimbridge Energy DC Microgrid ...
