---

The current focus will be on Energy Efficiency (EE) and Renewable Energy (RE) project implementation (planning and execution) for the overall Kuala Lumpur city is to be ...

With regional engineering expertise and a global O& M network, SynVista continues to deliver end-to-end energy-storage capabilities -- from project development and system ...

Based on existing plans and projections, the power sector is expected to increase its RE capacity to 31% by 2025 and 40% in 2035, reducing the carbon intensity to GDP of the sector by 60% ...

KUALA LUMPUR (Jan 26): Tenaga Nasional Bhd will kick-start a 400 megawatt-hour (MWh) battery energy storage system (BESS) pilot project in this quarter, marking Malaysia's first ...

Potential benefits of energy storage are explained which covers the three possible strategies focusing on the aspect of tariff relaxation, power disruption, and planning.

This innovative project will improve the efficiency and reliability of our solar energy operations at LSE II, while also demonstrating the broader potential ...

This project is also Malaysia's first utility-scale BESS connected to an operational LSS farm. BESS alleviates intermittency challenges by enabling excess energy from the LSS farm to be stored and ...

KUALA LUMPUR (Jan 26): Tenaga Nasional Bhd will kick-start a 400 megawatt-hour (MWh) battery energy storage system (BESS) pilot project in this quarter, marking Malaysia's first utility-scale ...
