Which hospitals will install solar photovoltaic (PV) systems?

As part of this collaboration, the leading clean energy infrastructure developer will install solar photovoltaic (PV) systems across Ara Damansara Medical Centre, Bukit Tinggi Medical Centre, ParkCity Medical Centre and Subang Jaya Medical Centre, hospitals under the A1Health.

Can government hospitals use solar energy?

KUALA LUMPUR: The government is planning some initiatives to encourage the installation and utilisation of solar energy systems in government hospitals, says Datuk Seri Fadillah Yusof.

Why do hospitals use solar panels?

With the installation of solar panels across our network of hospitals encompassing Gleneagles Hospitals, Pantai Hospitals, Prince Court Medical Centre and Timberland Medical Centre, we are able to transition to renewable energy and reduce our greenhouse gas emissions. This is all part of our broader commitment to Care.

Which hospitals have generated solar energy?

According to a statement from IHH Healthcare, among the hospitals in its network that have generated solar energy to date are Penang Gleneagles, Pantai Laguna Merbok, Pantai Klang, Pantai Cheras, Pantai Kuala Lumpur, Pantai Ampang and Pantai Batu Pahat.
