From hybrid grid stabilization plants to renewable microgrids, our cutting-edge solutions are enabling reliable, efficient, and clean energy for ...

The Laguna Wastewater Treatment Plant (LTP) microgrid project demonstrated an advanced microgrid at a large wastewater treatment facility that would provide increased reliability and resilience.

These DER systems will typically include generation and storage capabilities with advanced microgrid controls that support island operation in the event of a loss of grid services.

The Eos EnergyBlock clean energy storage system was selected on the basis of its safe, scalable, efficient, and sustainable design and its optimization for 3- to 12-hour discharge ...

This project upgraded a wastewater treatment plant to use a microgrid with a solar photovoltaic system, energy storage, and a microgrid controller for increased resiliency and to ...

Jolta Battery's Off-Grid and Energy Storage Containers are based on a modular design. They can be configured to match the required power and capacity requirements of your application.

Start with expert collaboration. Our team has been delivering successful onsite energy solutions for over 65 years. Let's work together to build a BESS that meets your unique needs.

The Laguna Wastewater Treatment Plant (LTP) microgrid project demonstrated an advanced microgrid at a large wastewater treatment facility that would provide increased reliability and ...
