Who controls the energy sector in Lesotho?

There are other Ministries or agencies with overarching influence over the energy sector: Ministry of Development Planning; Ministry of Finance; Ministry of Mining; Ministry of Public Works and Transport; Water Commission; and Lesotho Revenue Authority. Lesotho Electricity Corporation (LEC) generates, transmits, and distributes electricity.

Who is Lesotho electricity & water authority?

More than 20 years of experience mandated with regulating the electricity sector, urban water and sewerage services in the country. Lesotho Electricity and Water Authority (LEWA) was established through the Lesotho Electricity Authority (LEA) Act. No. 12 of 2002 as amended.

Does Lesotho need electricity?

The country is renowned for an abundant supply of unspoilt and unexploited water resources, capturing approximately 50% of Southern Africa's total catchment run-off, therefore, hydropower contributes to most of its electricity needs. When it comes to energy access, Lesotho is considered one of the lowest in Africa.

What is the electricity supply industry in Lesotho?

The electricity supply industry in Lesotho is dominated by two state owned entities, namely the Lesotho Electricity Company (LEC), which is the monopoly transmitter, distributor and supplier of electricity, and the Lesotho Highlands Development Authority (LHDA), which is the main generator of electricity through its Muela Hydro Power Station.

Under the Electricity Supply Industry (ESI), the Authority regulates the generation, transmission, distribution, supply to premises as well as the import and export of ...

The Letsatsi Solar Power Station is a crucial component of Lesotho's plan to source 30% of its energy from renewables by 2030. By decreasing the nation's dependence on ...

The regulator has not yet developed technology-specific model purchase power agreements for different renewable energy technologies. However, it has developed tariffs for different ...
