Can Lithium Werks make a custom battery pack?

Lithium Werks' patented Nanophosphate[®] battery technology (designed by MIT and A123) can be used in your custom modules. We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or pouch cells can be produced for your pack.

Are lithium iron phosphate batteries better than other lithium ion chemistries?

Despite having a lower energy density than other lithium-ion chemistries, lithium iron phosphate batteries can provide better power density and longer life cycles. Emerging Power is your premier lithium battery assembler. We manufacture custom lithium iron phosphate battery packs and assemblies for many applications.

What types of batteries can custom power provide?

Custom Power provides custom battery design for: Li-ion LiFePO₄ LiPo NiMH NiCd Primary lithium batteries BMS circuitry integration Chemistry options Lithium-Ion Lithium-Polymer Lithium Iron Phosphate Lithium Primary Nickel Cadmium Nickel Metal Hydride Custom Battery Pack Design & Engineering

What is a lithium ion battery?

Lithium Werks builds custom battery packs and modules using lithium iron phosphate LFP batteries. Lithium ion provides power, safety, and life to your application.

Our battery design team uses the latest mechanical and electronic design tools to optimize the reliability, safety, and manufacturability of your custom battery packs. This gives you the most ...

We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or ...

Alexander Battery Technologies is an expert custom LiFePO₄ battery pack manufacturer. We design and produce high quality customised Lithium Iron ...

With a remarkable cycle life that can extend into the thousands and exceptional performance across a wide temperature range, it's clear why LiFePO₄ is the ...
