The passage of Republic Act No. 11234, entitled "Energy Virtual One-Stop Shop (EVOSS) Act" on 08 March 2019 paved the way for streamlining and expediting the permitting ...

Explore the Philippines' Power Sector with our Energy Project Mapping Tool. Gain insights and data for informed decisions.

Low enthalpy geothermal technologies, offshore wind development, energy efficiency projects, and energy storage ancillary services are in different stages of feasibility development, and ...

To demonstrate and evaluate the potential of Battery Energy Storage System (BESS) to manage peak demand and energy, improve service reliability and power quality, and compensate for ...

Low enthalpy geothermal technologies, offshore wind development, energy efficiency projects, and energy storage ancillary services are in different stages of feasibility ...

To demonstrate and evaluate the potential of Battery Energy Storage System (BESS) to manage peak demand and energy, improve service reliability and power quality, and compensate for the ...

As highlighted in a recent study: Generation is now practically dominated by 11 families, which control 74.23% of the installed capacity.

To address recurring power supply challenges, the following policies and developments can help create a more resilient and sustainable energy system in the long term:
