Discover the exceptional quality of our Burn-in Test Equipment, with over 15.0 years of experience in manufacturing and supplying cutting-edge solutions worldwide.

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

High performance and reliability come in a compact package, for a wide range of temperature/humidity testing needs. Continuous improvement in the design of constant-temperature (and humidity) ...

Desk-top Constant Climate Cabinet Market Revenue was valued at USD 500 Million in 2024 and is estimated to reach USD 1.2 Billion by 2033, growing at a CAGR of 10.5% from 2026 to 2033.

Constant Temperature Humidity Test Chambers test products performance to withstand extreme temperature and humidity by simulating harsh climate conditions, it can analyze and evaluate ...

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more ...

Control method and features: Balanced Temperature Control System (BTHC) uses P.I.D. method to control SSR, so that the heating and humidifying amount of the system is equal to the heat and ...
