How big is the data center battery market?

The market for data center battery was valued at USD 3.4 billion in 2024 and is expected to reach around USD 5.9 billion by 2034, growing at 5.5% CAGR through 2034. Data center battery market was valued at USD 3.4 billion in 2024 and is estimated to grow at a CAGR of over 5.5% from 2025 to 2034 driven by growing advancements in battery technology.

What is a data center battery?

Energy storage systems are designed to save energy for later use in order to assist load balancing, peak shaving and integration of renewable energy sources. Based on data centers, the data center battery market is segmented into enterprise data centers, colocation data centers, hyperscale data centers, and edge data centers.

Will data center battery market grow in 2025?

The data center battery market in the U.S. is expected to experience significant and promising growth from 2025 to 2034. There is growth in data centers in North America as a result of technologies including cloud computing, AI, and IoT. They demand a constant flow of power that leads to growth in the battery market.

What are the top 5 companies in data center battery industry?

The top 5 companies of data center battery industry are Delta Electronics, East Penn, EnerSys, Leoch International Technology, and LG Energy Solution. They collectively hold a market share of around 30% in the market. EnerSys focuses on the development of innovative battery technology for data centers.

The global market size for battery storage cabinets was estimated to be around \$3.2 billion in 2023 and is projected to reach approximately \$6.5 billion by 2032, growing at a robust ...

The data center battery market is estimated to be valued at USD 3.6 billion in 2025 and is projected to reach USD 6.1 billion by 2035, registering a ...

The global market for weatherproof data cabinets is projected to reach \$2.8 billion by 2028, growing at a 7.2% CAGR. Demand is primarily driven by 5G infrastructure expansion, ...

Market Breakdown by Type: Among the types of energy storage battery cabinets, lithium-ion batteries hold the largest share at 60%. This is followed by lead-acid (20%) and sodium-ion ...

The Data Center Battery Market is witnessing rapid advancements in battery technology, which enhance
