Can mobile solar design & manufacture solar generators?

Mobile Solar can design & manufacture solar generators and mobile power systems to fit most residential and commercial demands. View our line of generators below. Our new and industrial strength solar generator trailer is built on a custom open chassis, designed for rugged environments and prolonged durability.

What is a mobile power station?

The MOBIPOWER is the silent solution for your remote power needs at construction job sites, off-grid camps, or other applications. Whereas, diesel generators require with fuel and are noisy, this mobile power station uses solar energy with no noise pollution.

Which solar panels do you use?

We use the highest quality solar panels, including LG, Peimar, and Canadian Solar; these solar panels harvest the sun's power and store the energy in high-quality lithium batteries, controlled with an external BMS. Then the power is distributed using Victron Multiplus units, so this inverter/charger can transfer the power.

What is a solar power generator?

A silent, worry-free alternative to loud and dirty diesel generators to meet high off-grid power needs using solar power generation - with optional wind turbine (s) for augmented power generation day and night. Harvested power stored in a choice of batteries including Lithium Ion, EV Second Life Batteries, and deep-cycle AGM batteries.

LZY-MS1 Sliding Mobile Solar Container is a portable containerized solar power generation system, including highly efficient folding solar modules, advanced lithium battery storage and intelligent ...

GoGrid provides powerful, mobile battery and solar solutions designed for rapid deployment and off-grid use. Rugged, reliable, and easy to transport, GoGrid ensures you have power when and where you ...

Huijue Group's Mobile Solar Container offers a compact, transportable solar power system with integrated panels, battery storage, and smart management, providing reliable clean energy for off ...

SolarBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

The Mobile Solar PV Container is a portable, containerized solar power system designed for easy

Mobile cabinet solar power generation system
