The 146MW Tanahu project isn't your grandpa's pumped storage. Its AI-powered turbines predict rainfall patterns using Himalayan glacier melt data, achieving 89% round-trip efficiency.

Even though Nepal's installed capacity has been expanding, there can be no energy security without having a mix of storage and pumped storage projects together with the RoR plants.

We analyzed multiple scenarios of energy storage build-out in Nepal by adding an incremental quantum of 4-hour energy storage and optimizing the mix of resources required to meet energy and ancillary ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This groundbreaking ...

Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install one of the largest ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development ...

This article explores the country's progress, challenges, and innovative solutions like solar-storage hybrids and microgrids. Learn how these projects are reshaping Nepal's energy landscape and ...
