How can a double-walled sheet steel cabinet prevent a battery fire?

Shielding your business from the dangers of Li-ion battery fires, our double-walled sheet steel cabinet with 40mm thermal air barrier offers a smart fire containment system to slow the spread of a battery fire.

Ideal for the largest batteries and larger operators, such as leisure equipment companies and storage warehouses, this Lithium-ion battery cabinet is the biggest and, if we say so ourselves, the best.

For larger businesses, this Lithium-ion battery cabinet makes the most of the clever double-wall, sheet steel design, which provides a thermal air defence to slow the advance of any battery fire.

CentrePort will be installing a pilot scale 1000kWhr / 500kW BESS facility to address current operational challenges and meet the near-term needs of electrification initiatives.

We are major suppliers of Sealed Lead Acid, Lithium Deep Cycle and start batteries. Order your battery from your desk and it will be delivered to your door - free to main centres in New Zealand.

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...
