Where to buy wind generator in New Delhi?

Chand Nagar, New Delhi First Floor, Wz-283/17, Gali No. 2, Vishnu Garden Extention, West Delhi, New Delhi - 110018, Dist. New Delhi, Delhi Have a Question? Ask our expert These are indicative values based on popular product prices. Find here Wind Generator, Wind Power Generator manufacturers, suppliers & exporters in India.

What is the market share of Envision wind turbines in India?

Envision currently has a market share of 41% as the top wind turbine original equipment manufacturer (OEM) operating in India. Envision currently operates across six states in India, serving 22 independent power producers (IPPs) and managing over 60 wind project sites.

How many kilowatts does a wind turbine use in India?

They typically range from 500 watts to 10 kilowatts in India and can be installed in areas where land availability, terrain or infrastructure constraints prevent larger installations. These turbines are versatile and can be deployed both on-grid and off-grid.

Why is India's wind energy sector growing so fast?

India's wind energy sector continues to expand rapidly, reaching an installed capacity of 48.59 GW as of February 2025. India is currently positioned as the fourth-largest wind power producer globally. This growth is fueled by a combination of strong government policies, technological advancements, and rising private investment.
