-----

Liquid-cooled Battery Cabinet ECO-B372LS The liquid-cooled battery cabinet adopts advanced cabinet-level liquid cooling and temperature balancing strategy.

It integrates a high-voltage LFP battery with a capacity of 372KWh and a power rating of 150KW, making it suitable for both commercial and industrial ...

The modular design enhances flexibility in parallel connection schemes and offers higher energy density, significantly improving the economics, safety and construction convenience of energy storage projects.

It integrates a high-voltage LFP battery with a capacity of 372KWh and a power rating of 150KW, making it suitable for both commercial and industrial applications. The system includes a Battery ...

372kWh 1331V Battery Storage Cabinet with Liquid-Cooling BESS-372K, the liquid cooling battery storage cabinet that offers high safety, efficiency, and ...

Our R& D Centre is ready to develop, optimize and test battery packs from the ground up, ensuring we deliver a fully functional plug & play system. From initial ...

372 kWh liquid-cooled cabinet battery storage system. Intelligent liquid-cooled temperature control, reduce system auxiliary power consumption. Configure the ...

The 372kWh LiFePO4 Solar Battery Storage Cabinet is a renewable energy commercial and industrial-scale intelligent energy storage system. Engineered with superior quality lithium iron phosphate ...
