Which international trade issues will remain a concern for energy storage projects?

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

Will China impose tariffs on lithium-ion EV batteries?

An interesting issue will be the imposition of tariffs. There are existing tariffs pursuant to Section 301 of the Trade Act of 1974 on some Chinese-origin lithium-ion EV batteries and non-lithium-ion battery parts, which were increased to 25% in September 2024.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.

Which countries are deploying record-breaking battery storage capacity in 2025?

European Union countries deployed record-breaking battery storage capacity for the 12th consecutive year in 2025. US sodium-ion (Na-ion) battery technology company Unigrad has begun international shipments of its proprietary sodium cobalt oxide (NCO) cathode cells at commercial volume.

In recent years, the energy storage battery export sector has emerged as a critical pillar of the global renewable energy transition. This article analyzes key market trends, regional demand ...

Leading BESS owner-operators across Europe discuss the key trends around the financing and deployment of grid-scale projects, with the segment now the driver of continent-wide ...

Did you know the same lithium powering your smartphone could soon become a country's economic lifeline? As global new energy storage foreign trade orders surge 78% year-over-year ...

With countries racing to meet renewable energy targets and stabilize power grids, energy storage battery foreign trade docking has become the hottest handshake in international commerce.

US imports of various types of batteries and related parts for energy storage systems, electric vehicles, consumer electronics and other uses have soared this decade, ...

Leading BESS owner-operators across Europe discuss the key trends around the financing and deployment of

New energy storage solar energy storage cabinet lithium battery foreign trade
