While hydropower traditionally dominated Macedonia's renewable sector, PV systems have led the expansion between 2022 and 2024, marking an unprecedented growth period for renewable energy ...

It would make the second-largest photovoltaic unit in the Western Balkans a hybrid power plant. Fortis Energy completed the biggest solar power ...

North Macedonia's plan for 2026 includes 67 power plant projects of at least 1 MW each, for investments totaling an estimated EUR 3.74 billion, and 96 accepted proposals for standalone and ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and ...

It would make the second-largest photovoltaic unit in the Western Balkans a hybrid power plant. Fortis Energy completed the biggest solar power plant in North Macedonia in 2023 and ...

In a recent interview, North Macedonia's Minister of Energy, Mining and Minerals Sanja Bozinovska said projects are under development for battery energy storage systems (BESS) and pumped storage ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, ...

For North Macedonia to achieve its renewable targets, power lithium battery storage isn't optional - it's essential. From solar farms to industrial complexes, these systems provide the flexibility and ...
