Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.

Outdoor power cabinets, DC power systems, batteries, rectifiers, radio enclosures, and equipment racks for telecommunications equipment backup and protection, site optimization, power protection, and ...

Our battery enclosures can be pole-mounted or ground-mounted and are suitable for indoor and outdoor applications. If you are not sure which enclosure you should choose, please don't hesitate to email ...

It combines different power inputs (small wind turbines, solar PV panels, and AC/DC rectifier) with an internal lithium-ion battery for backup, network connectivity, and continuous power for ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and ...

It is a unified power supply platform system that supports various AC and DC input and output formats, meeting different power input and output requirements. Note: Specifications are ...

We offer pad and pole mounted enclosures for single and multiple batteries and pre-wired back panels with solar controllers, DC to AC inverters, DC to DC Converters, POE's, and customer ...
