Can a DJI portable generator be used as a solar generator?

DJI portable generators are built to be mobile, last, and produce power. Whether it is powering your mini-fridge, charging your drone or running tools, wherever you are. Using DJI's solar panels, you can turn your portable power station into a solar generator.

Are DJI solar generators practical for home backup?

DJI has established itself as a leader in the high-tech field, and so too has the personal off-grid power solution making its debut to the world. After nearly a decade of developing eco-friendly power systems, smart safety features and intelligent control systems, DJI delivers: Are Solar Generators Practical for Home Backup? Absolutely.

What makes the DJI power series different from other portable power stations?

The one distinct feature that sets the DJI Power Series apart from other portable power stations is its unique Super-Fast Charge function. With the aid of separately-sold charging cables, you can fast charge select DJI drone batteries with the DJI Power SDC super-fast charge function and be up in the air within approximately 30 minutes.

Does DJI power recharging work with Zignes solar panels?

Can connect to the DJI Power series and DJI-certified Zignes solar panels, facilitating eco-friendly solar recharging for the DJI Power series. Offers a charging output of up to 100 W with a foldable design for easy storage and transportation. Rated IP65 for dust and water resistance.

Fully Recharged Fast - DJI Power 1000 can be fully recharged in just 70 minutes using grid power. Charge fast and save time so you get moving on your next trip or outdoor ...

Fully Recharged Fast - DJI Power 1000 can be fully recharged in just 70 minutes using grid power. Charge fast and save time so you get moving on your next trip or outdoor adventure.
