What is a PV hub & how does it work?

The PV HUB is applied to the balcony solar energy system, relying on the micro-inverter to achieve grid-connected power generation, the PV Hub to achieve solar energy storage, improve the efficiency of solar energy use, and the system intelligently controls the power output to achieve the purpose of saving the electricity bill.

Do you need a power hub for solar lighting?

Keep the lights on, wherever you are. No mains required. Solar lighting solutions Mains equivalent illumination for interior and exterior spaces where no grid power exists. Explore > Solar power hubs A reliable and robust solar hub to provide light and energy where no grid power exists. Explore >

What is solar energy & why is it important?

Solar energy is the fastest growing and most affordable source of new electricity in America. As the cost of solar energy systems dropped significantly, more Americans and businesses are taking advantage of clean energy.

Why should you invest in solar energy?

Millions of Americans are deciding to power their homes with solar energy--especially as costs have decreased--but an investment in solar energy generates more than just clean energy. It can support household savings, energy independence, economic opportunities, grid reliability, resilience, security and affordability, and a safer planet.

Our Solar Retrofit Power Hub is an outdoor off-grid power source that integrates with existing outdoor bus stations and whenever an off-grid power source is ...

Outdoor solar power stations are facilities designed to capture and convert sunlight into electrical energy using solar panels, often utilized in various environments, including residential, ...

With an enormous (and expandable) 3,600 Wh battery capacity, it can power up your entire RV, including AC, appliances, and more. It charges rapidly with multiple solar panels and ...

Solar powered outdoor outlets are an affordable entry-level option for getting into solar energy. However, their limited capacity leaves you at the whims of the weather and sunlight since ...
