South African independent power producer and renewable energy company Terra Firma has announced a new R1,3 billion utility-scale solar energy build programme that will deliver a ...

Pretoria proper as you would call it would be half white half black. I use the proper because the areas near to town are suburbs and mostly white. The whole of Tshwane would however be majority black ...

The subreddit for the capital city of South Africa. News, events, people and anything else about and around Pretoria.

Whether you want to power your operations with clean energy or lease your land for solar development, we can help turn your property into a renewable energy asset.

A list of Pretoria's Lost Spaces I've posted this list a couple of times in different subs over the last few years in response to questions about abandoned places in the city.

Asking people of colour: I'm moving to Pretoria soon for postgrad, is there frequent racism in town and university?

Solar power has emerged as one of the most significant renewable energy sources in Pretoria. With an abundance of sunlight, the city has taken advantage of this natural resource by installing solar panels ...
