Are ABB solar inverters a good choice in Australia?

ABB's inverters score high in both domains. In 2025, ABB inverters offer reliable and efficient solar solutions for residential and commercial applications in Australia. The single-phase UNO-DM-PLUS 5.0kW is priced between A\$1,200 and A\$1,500, providing an affordable option for smaller homes.

How many inverter/chargers can be installed in a cabinet?

It is suitable for placing up to Three(3) inverter/chargers in series or parallel configurations. The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements.

What are ABB inverters?

ABB inverters are known for their advanced features, including remote monitoring and control, which facilitates maintenance and maximizes system uptime. ABB inverters are the combination of Swiss engineering precision with worldwide solar experience to offer industry-leading reliability, efficiency, and smart energy management.

Why do I need a cabinet for my inverter & charge controller?

The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements. The cabinets are made of aluminium, making them easy to position and providing a long service life.
