It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy expansion and ...

The 1 MWh battery pack consists of 75 pcs 51.2V 280Ah lithium battery modules. The modular combination is more flexible and allows you to adjust the number of battery modules according to ...

The cabinet maintains high efficiency in both on-grid and off-grid modes, converting fluctuating energy prices into predictable costs. With stable output and fast response speed, it meets the demands of ...

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large ...

The 1 MWh battery pack consists of 75 pcs 51.2V 280Ah lithium battery modules. The modular combination is more flexible and allows you to adjust the number of battery modules according ...

It offers energy ranging from 50kWh to 1MWh and covers most of the commercial and industrial application scenarios, such as load shifting, renewable clipping, and back-up power, etc.

We cater to major organizations such as solar power system manufacturers, PV project contractors, distributors, EV charging operators, and distributors, Our factory is located in ...

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy ...
